Highlights & Growth History

Staffing & Services

- Be it Staff Augmentation, Hire Train Deploy or Remote IT Staffing, BOB Tech brings in the most appropriate solutions that can perfectly match with the client requirements. Leveraging the deep industry knowledge and expertise in services based on advanced technologies, we help to strategize and implement optimized solutions for clients' Enterprise IT environment.

Staff Augmentation & Remote IT Staffing

- BOB differentiates itself with a unique business model driven by significant upfront investments in training and development of personnel. The team understands how to evaluate top talent, retain this talent and pro-actively address customers' needs. BOB Tech can supplement the customers' IT resource needs over short-, mid- and long-term.
- Through this model BOB Tech acts as an extended partner to its client in sourcing, screening and employing offshore staff. BOB Tech will host, support and manage the client's offshore staff in our operational offices - as per their specific requirements. The offshore staff will work exclusively to the client on a full time basis. The client has full control over the whole process, from deciding on which staff they choose to hire for their offshore team, right down to how they will be supported and managed. It is just like hiring locally; however the staff will be located offshore and work remotely.
- Remote IT Staffing is an ideal engagement model for entrepreneurs, freelancers and small businesses. Foreign businesses are able to embrace Remote IT Staffing with just a single offshore resource across generic or niche IT Skills and then grow into a full team, at their own pace.

Hire Train & Deploy

- BOB also believes and focuses on predictive hiring understanding & bridging the gap between the demand & the supply chain thru' its Skill Enhancement Programs & HTD Model.
- Our in-house technical expertise gives us the confidence & flexibility to help enhance the available skills in market to the required degree as per the client needs
- In HTD, BOB Tech Solutions have placed more than 1000+ Candidates on various technologies to various clients
